Same Summit – New Stage

In 2027, Hardrock Summit moves to the National Western Center in central Denver. The modern campus offers expanded indoor and outdoor exhibition space, improved logistics, 1,500+ parking spaces and plenty of room for future growth – all in one purpose-built event destination.

For exhibitors, the new venue means more flexibility, better accessibility and greater opportunities to connect with buyers and collectors. Together with Hart's Denver Gem Show on the same campus, it creates a concentrated destination with even stronger visitor potential.

Figure 1 is a detailed floor plan of the 10th floor of the 1000 Bank of America Tower. The plan shows various office spaces, each labeled with a number (LN. followed by a number) and the name of the tenant. The spaces are arranged in a grid-like fashion, with dimensions and area measurements provided for each. The plan also includes a central corridor system and a large open area at the bottom right. The overall layout is complex, with many small, irregularly shaped spaces. The plan is oriented with North at the top.

The plan includes the following spaces and tenants:
